## Rated Hatches

Our rated Hatches are made to order so that we are able to supply a product that suits all of your needs. They can be manufactured 20 PSI or 50 PSI in a variety of widths to suit your wall thickness and can be supplied with either an unrated or rated back door if required. We also provide a filling point that can be used to fill the Hatch to completely seal off a section.

**Manufacturers of Mining Ventilation Equipment and more, since 1974.**
